## 5. STATEMENTS BY MEMBERS

5.1. Hon. Hattingh on behalf of DA tabled a statement on the ANC's dichotomy in the Tlokwe Local Municipality. He stated that: "the ANC in their motion of no-confidence in the Tlokwe ANC Executive Mayor inter alia stated the following:

That Maphehle Maphehle, interfered in the administration by illegally procuring goods and services. Illegal interference in the administration and management in the supply chain management. Unscrupulously and inconsistently allocated Council even; Illegally approved an access road to be paved."

"In spending R5 million for an Executive Mayoral project, he made concessions which led to maladministration, nepotism, database manipulation, job for pals and discriminatory practices. The project failed because funds were embezzled and no accounting system was in place. The Mayor allegedly misused the funds created for poverty alleviation and disaster".

"The ANC reinstated the same Maphehle Maphehle after 3 months of DA Rule after repeated visits to Potchefstroom by ANC National and Provincial Leadership including President Zuma. The ANC caucused to support Maphehle Maphehle. The motion of no-confidence in the Executive Mayor Combrink, the ANC's Dakota Legoete stated on behalf of the ANC that the people voted for the ANC and not a white mayor underlining the deep racism embedded within the ANC. This depicts ANC democracy in action – ANC hegemony and racism above clean administration".

The following Members responded to the statement: on. Kegakilwe and Hon. Elisha .

5.2. Hon. Motladiile on behalf of the ANC tabled a statement; by commenting on the recent rape nightmare that is plaguing our society: "Information has been persistently conveyed from both print and audio media on the

horrible and violent crimes that are being perpetuated daily on our women and children nationwide. North West province has not been exempted from these crimes.

The observation from this recent spate of brutal crimes is that the perpetrators seem to be increasingly targeting young female children and elderly women who cannot by any means defend themselves.

What happens to the children in their first days, months and years affects their development, the development of the society and that of the world. A caring, non violent society would be achieved when everyone is treated with respect despite social engineering nor political correctness. It is a vision we should strive to achieve. This will be an ambiguous vision if we persist to fail to protect our children and elders.

It is the mandate of Government to protect women and children hence we plead to all sectors of Government to swiftly give this matter the attention it needs. We want all relevant Government sectors to put their heads together to come up with a solid protection plan.
